

# PREPARE EARLY EDUCATION PROGRAM (EEP)

*Prepare with us!*

Equip your child with the tools and knowledge for important components of learning that form the foundation of later educational achievement and positive attitudes towards learning.

The Prepare Early Education Program (EEP) is designed to cater for individual learning styles and encourages children to be confident, active participants in their learning.

Our inquiry-based programs together with our play-based learning environments actively promote children's learning through relevant and challenging experiences that foster high-level thinking.

The unique Prepare Early Education Program has been drawn upon national best practice plus the latest university and industry research to provide children with an exceptional, age-relevant, dynamic early learning program.

## *Why Prepare EEP?*

Children use play to investigate, imagine and explore ideas, so we have incorporated inquiry-based experiences within the Prepare Program encouraging children from a young age to become confident learners and flexible thinkers.

Our unique Prepare Early Education Programs forms the foundation for our curriculum and draws upon national best practice, plus the latest university and industry research to provide every child – from infancy, right through to Primary School transition, with an exceptional age relevant, dynamic play-based learning program.

# What does Prepare EEP cover?

Our Prepare Early Education Program covers six key learning areas of curriculum for your child:

## LITERACY

Fostering children's language and literacy development by providing a rich language environment

*Prepare to communicate!*

OUTCOMES INCLUDE:

- Extending vocabulary using stories
- Creating a love of reading
- Phonemic awareness and letter-sound relationships

## NUMERACY

There is more to numeracy than just counting, numeracy is using mathematical thinking on a daily basis. Building mathematical skills that will assist children in solving everyday problems.

*Prepare to solve!*

OUTCOMES INCLUDE:

- Counting forwards and backwards from 30
- Identifying numbers on a 100 number chart
- Two-dimensional and three-dimensional shapes
- Lengths and distances, volume and capacity

## SCIENCE

Our science curriculum provides hands-on experiences and experiments that stimulates curiosity and the inquiry process that allows children to explore and discover the fascinating world around them.

*Prepare to discover!*

OUTCOMES INCLUDE:

- Climate
- Human body
- Physical science

## CREATIVE ARTS

Our curriculum encourages and supports children's creativity and imagination not only for its aesthetic value but also for its role in enhancing other areas of development.

*Prepare to create!*

OUTCOMES INCLUDE:

- Visual arts, music, drama and dance

## HEALTH & WELLBEING

Our health and wellbeing program aims to encourage children to create healthy choices and positive decisions. It promotes confident learners as they discover themselves and construct their own identity.

*Prepare to create!*

OUTCOMES INCLUDE:

- Balance of work, rest and play
- Yoga
- Fundamental movement skills
- Health and nutrition
- Cultural identity

## SUSTAINABILITY

Children will develop positive attitudes and values to environmental learning and identify ways of providing a healthy environment for future generations.

*Prepare to empower!*

OUTCOMES INCLUDE:

- Saving water, recycling, organic gardening, reducing waste and reusing old materials
- How to be energy efficient

## How do I know how my child is progressing?

Your child's educators take an active role in understanding your child's unique interests as well as learning through guided or spontaneous learning experiences as a group.

This allows us to communicate with you about your child's personal development and learning on a regular basis.

In addition as your child journeys through each area of curriculum their journey will be captured to illustrate your child's successes, strengths, challenges and next steps across all six areas of the Prepare EEP on a regular basis.
